Changelog for controllers fellerLYnk

Firmware version: 2.6.2

Product affected:

- 36170-00.REG   fellerLYnk

Added:

Changed:

- bacnet client library: add support for accumulator object type
- scenes: fix scene control for scenes without a mapped object
- applications: fix applications sorting for applications without title
- applications: fix public directory access rights
- visualization: do not apply scale(1) to elements that have scaling set to 100%
- modbus: add profile validation during upload
- flashsys: add version tag to prevent caching issues
- trends: minor fixes for small screens
- system config: add CORS origin settings for the HTTP server
- trends: highlight active trend in the legend when the tooltip is shown

Security:

- CORS – cross-origin resource sharing configuration. Up to 4 IP addresses / hosts which can use CORS

Upgrade procedure:

1.   Click Configurator -> *System -> System -> Upgrade firmware*

2.   Find firmware for your product

3.   Click OK

Note:

- It is highly recommended to create backup of your actual project before upgrade!
- We recommend to use always the latest firmware because of optimalization of writing data to microSD cards, running services, cyber security etc.
